**Coated Casing Spacers - Isolators** PSI coated steel casing spacers/isolators are the specified selection when strength and excellent corrosion resistance are your most important concerns.

**Stainless Steel Casing Spacers - Isolators** PSI stainless steel casing spacers/isolators are selected when strength and maximum resistance against corrosion are your most important concerns

**Ranger II® Casing Spacers** Ranger II® is an all non-metallic casing spacer system designed to ease carrier pipe insertion, reduce inventory costs, make installation quick and easy and last for the life of the piping system

**Model PE Casing Spacers** PSI Model PE Casing spacers/isolators are manufactured from high density (linear), injection molded polyethylene to provide positive insulation, high abrasion resistance and low coefficient of friction

**Multi Pipe Custom Casing Spacers** Custom casing spacers may be manufactured to customer specifications to accommodate several pipes, conduits, cables or any other cylindrical item that needs to be inserted into the casing along with the carrier pipe
