Link Seal modular seals, your insurance of an effective hydrostatic seal capable of holding 20 psi (40 feet of static head. From ductile iron pipe (DI), to pre-stressed concrete pipe steel, PVC pipe or conduit and cable; whatever your pipe application, Link-Seal is the engineers standards to meet.

Century-Line wall sleeves mate perfectly with Link Seal Modular Seals. The exterior of the sleeve is specifically dimple molded to enhance concrete adherence Century-Line wall sleeves are not subject to corrosion. Pipe sizes up to 22" OD.

Cell-Cast Disks form openings to allow Large OD Pipe to penetrate concrete walls. They are molded form non-conductive plastic, lightweight and may be installed by one construction worker.

Steel Wall Sleeves are constructed in a wide range of diameters and lengths. They are an excellent choice for installations where the Link-Seal® Modular Seal and wall sleeve assembly would be subject to extremely high temperatures or where fire seals are specified.
